TABLE om3.0 HI-MACS® Steel Grey

This ultra-modern table was created by Olivier Moravik, a freelance photographer for almost 10 years and also a luxury furniture designer. In 2012, he founded **Studio mjiila**, a young publishing company that markets his creations in the furniture industry. HI-MACS®'s strong, solid and thermoforming properties allowed Moravik to bring his creations to life. The designer invented contrasting geometric shapes: wood and solid surface form a balanced whole.

For the 2014 edition of Maison & Objet, the table om3.0 is shown and displays its smooth curves. The contrast between the **HI-MACS®** top and its solid wood "tripod" leg gives it a very contemporary look. This elegant table is suitable for any room in the house; its colour blending harmoniously with any interior design.

Where to find the table om3.0 at Maison & Objet:

MAISON & OBJET ACTUEL

Hall 5B - stand R42

Designer:

Olivier Moravik, Mjiila www.mjiila.com
